ABOUT ME

Law Graduate | Aspiring Front-End Developer
With a strong foundation in law, I bring a keen eye for detail and problem-solving to front-end development. I love creating web apps that everyone can enjoy and use easily. My goal is to design websites that look great, feel intuitive, and work seamlessly across all devices. I focus on accessibility and simplicity, making sure each user has a positive and engaging experience.

INTERNSHIPS

Information Technology Institute (ITI)   Nov 2024 – present
